**DEPARTMENT OF PETROLEUM  
RESOURCES HEAD QUARTERS  
COMPLEX**

---

*Design of 10 suspended floors which houses 10 units of the Department. The Building is designed to be iconic and contemporary.*

*Like a barrel of crude oil of yore (in figurative terms) emerged a form that shaped the Building's iconic image, while also serving the dual purpose of protecting the main façade from direct sunrays based on analysis of the sun-path diagram*

*It is located in the CBD of Abuja.*

**Client:** Department of Petroleum Resources

**Main Contractor:** Julius Berger Nig. Plc

**Completion period:** May, 2023
