

**SA'ARA ISOWO COURT,
ASOKORO, ABUJA.**

This Residential project demonstrates the relatively dense but luxurious housing on a brownfield site on a busy street close to the centre of Abuja- next to the Police headquarters.

A Block of houses 5 floors, the building is the characteristic of the Practice- a considered juxtaposition of solid and voids harmonised with projecting Balconies.

For would- be residents, a prime attraction is the view it offers towards the city and beyond.

Client: Alhaji Umaru Saro

Main Contractor: Zen Engineering Ltd

Completion: December, 2012
