

**STANBIC IBTC PLACE, WALTER CARRINGTON
CRESCENT, VICTORIA ISLAND, LAGOS.**

Located next to the Embassies of foreign missions and on one of the best kept streets on Victoria Island, Walter Carrington Crescent, the building has been built to the demanding specifications one would expect to be imposed by an organization with the high standards the Client is renowned for.

The building enjoys facades on two major roads: Ozumba Mbadiwe Avenue and Ahmadu Bello way.

These distinctive blocks with connecting links, is an elegant, simple and functional building where the shape of the building is dictated by the shape of the site in context.

First quality Agro Buchtal tiles cladding as a genuine response to elegance, aesthetic and maintenance concerns was utilized which ultimately gave the Client a prestigious building as one of the continent's leading Banks.

Client: Stanbic IBTC Bank Plc

Main Contractor: G. Cappa plc

Completed: January, 2000
